

\*SPOILERS HAVE BEEN REDACTED\*

The book was so AMAZING that I had so many favourite parts. It was hard to choose just one, however, when I found out that Ellie [REDACTED] I was shocked. This is because it was a wild twist and I wasn't expecting it. My next favourite part was the snippets from the Diary of Claude Hestermeyer. This was interesting as he [REDACTED]

I personally really enjoyed the author's writing style. The emotions and feelings you get from each sentence, like the last few sentences for example:

"What do you think we'll find out there?" Said Seth. Ellie stared out to the horizon, thinking. "You must have some idea?" He said. But Ellie shook her head. "Something new I hope. But to be honest... I don't know." She smiled. "Exciting isn't it?"

That made me feel interested, excited and happy with warm fuzzies. It left me excited and waiting in anticipation for the next book.

I really like the book because it has passion and it's my type of book. It was mysterious, surprising and kind of a dark style.

I think this book is for people who like creative mysterious and surprising books with lots of plot twists. I think this story is suitable for kids 8+.

Orphans of the Tide is so incredible that I will definitely read it again. This book is one of the best books I've ever read. I give it 5 stars.
